The Mainstream Media is Six Jewish Companies and they
happen to be
GE, VIACOM, Time Warner, News Corp, CBS, and Walt Disney, they
the
owners of these Six Jewish Companies have Dual Citizenship with
Israel, More than Six Travel Passports, Trillions of Dollars in
assets as Eustess Mullins and Rabbi Finklesten have said, also
you the Slave Cattle Goyim Gentile or non Jew are renting all
of
your stuff, are broke and have no assets of any kind, get my
point,
only the Pure Blood Cohen Jews of B'nai B'rith ADL have Assets,
Property, Gold, Silver, and Privledges and More than Six
Passports,
the Goyim or Non Jew or Peasants do not own anything they get
the
Fake Victor version of History, Notice Holocaust Denial is
illegal
in Sixteen Countries and Holocaust Deniers are
Institutionalized
and Medicated in American Society for simply Questioning
Holocaust.
That is my exact point as it is written in The Kyle Odom
Manifesto
and Protocols of The Learned Elders of Zion, The General
Populace is
Brainwashed Lemming Trumans and Goat People that never
understand any
of this, that is my main point, David Duke Jewish Supremacism,
Ernst
Zundel, Brother Nathaniel, Mark Collett, David Skrbina, Know

I had an Organized Stalking From Former CIA tell me that he would F Me Up and have me targeted and stuff. To get your Job as Electrical Engineer in The CIA, you will need a Cheap Dell Laptop or Cheap Asus Netbook, Puppy Linux BIONIC Thirty Two or Sixty Four Bit, You will need Solid State Drives To Copy Data over to other Drives, "Chmod -R 777000" , "gparted" "yes", "fdisk -l" "cat" "Tune2fs -O read-only" "ca-backspace", A Primitive Shelll For Drive Copies, "aplayarecord" For playing WAV Files, //SI//TK//Noform// for labeling, and Rox File Manager for the Quickest Possible Ext4 Drive Transfers from SSD to SSD, this is how the CIA does it using as little money as possible, cheap laptops that's how it works, Those Expensive Computers inflate in price because of the sophisticated Proprietary Hardware inside. Brands : HP, Lenovo, IBM, Dell, ACER, MSI, ASUS ... ; Intel for NUKS and Servers ase Mini PC NUKS as well ... ; Nirvgorilla will never be as good as the CIA, they are already hosting Self Rebooting Servers Connected Wired ethernet to Intel NUKS that never go bad or need fans. ; You see what I mean by this I mean the Real CIA Stuff ... ; I am familiar with the CIA Electrical Engineering Jobs and he is not all he does is play computer games and that's it. ; When spend hours on this boring job copying Terrabyte to Terrabyte to Verbatim and Samsung T7 Solid State Drives, we would never use Hard Drives Ever, that is a Mistake, as for Optical Media, it only works on Archival Format Period, and Flash Drives have to be a Certain Brand such as Lexar, Kingston, Verbatim, PNY, Samsung, San Disk, and it has to be a certain design otherwise you need ten of them chmoded to read only otherwise you will loose all of your data ... ; Targeted Individauls used to work for the DoD and CIA also. ; They are now being Stalked by Sheriffs and Freemasons ... ; So this is not new we know it is the Federal Government ... ; The Voice To Skull and Remote Neural Monitoring and Directed Energy Weapons are no mat to 7831, 80 BPM, and The Zakaos Tone, as well as Five Two Eight Solfeggio and Four Three Two Cycles. ; They cannot control all of us, they try to through Telepathy. ; Again this is what I have for this one, Signing off, POK GAI. ; --Scott A.
